

UB3.0.2.5:IP1.00

**Defense Information Infrastructure (DII)
Common Operating Environment (COE)**

Installation Procedures

for the

UB Segment

of

Unified Build (UB) 3.0.2.5

14 April 1997

Prepared for:

Defense Information Systems Agency (DISA)

Prepared by:

Inter-National Research Institute, Inc. (INRI)
10101 Old Grove Road
San Diego, CA 92131

Installation Procedures

UB Segment

The appropriate Operating System and DII COE Kernel must be properly installed prior to loading core and application segments.

- TAC-3/TAC-4
 - OS: HP-UX 10.20
 - Kernel: DII COE 3.0.1.0
- Sparc 10/20
 - OS: Solaris 2.5.1
 - Kernel: DII COE 3.0.0.3P2

Use the **Segment Installer** option within DII COE SysAdmin to load segments.

The following table shows the loading dependencies for the UB segment:

Segment Name	Requires
UB	OS and Kernel
